## **IDITAROD XLV MEDIA ADVISORY**

**Date: March 16, 2017**

**From: Mark Nordman, Race Marshal, Iditarod Trail Committee**

**Anchorage, Alaska** – The gross necropsy has been completed on Shilling, a three-year-old male from the race team of Roger Lee (bib #10), by a board-certified veterinary pathologist. Extensive pulmonary edema was the most significant abnormality determined. Further tests will be conducted in an attempt to identify the underlying cause of the edema, and to complete the necropsy study.
