

In the Chinese zodiac, 2018 is the **Year of the Dog**. This is just in time for the Iditarod Race in 2018! Other years, different animals are featured:

Rat  
Ox  
Tiger  
Rabbit  
Dragon  
Snake  
Horse  
Goat  
Monkey  
Rooster  
Dog  
Pig

Every 12 years, the animals repeat. If 2018 is the Year of the Dog, what will be the next Year of the Dog?

When was the last time it was Year of the Dog?

Can you figure out four other years in the past that were considered the Year of the Dog?
