

## Drop Bags

### Alphabetical Order

The checkpoint volunteers are pulling out the drop bags to have ready for the mushers. They need to put them in alphabetical order so that it's easier to find them as mushers arrive.

Write the following mushers' last names on a drop bag in alphabetical order from left to right.

Berington                      Burmeister

Bruggeman                    Buser

Bejna                            Beals

Six rounded rectangular drop bags are arranged in a horizontal row. Each bag has two horizontal blue lines, one above and one below the word "TAKOTNA" written in blue, italicized capital letters in the center.

Place these on drop bags in alphabetical order for the checkpoint of Iditarod.

FARQUHAR

EISCHENS

FLECK

DIEHL

FAILOR

FIEDLER
